

## **Table of contents**

Abstract.....	5
<i>Resumen</i> .....	7
1. Introduction	
1.1. Background.....	10
· Social, structural, and behavioural determinants of health	
· HIV and sexually transmitted infections	
· COVID-19 and mental health	
1.2. Aim and objectives.....	24
1.3. Peer-reviewed publications of the studies in this doctoral dissertation and contributions from the doctoral candidate.....	26
1.4. Funding, ethical considerations, and data access.....	28
1.5. References for the introduction.....	29
2. Studies	
2.1. Study 1: Social and behavioural determinants of syphilis: Modelling based on repeated cross-sectional surveys from 2010 and 2017 among 278,256 men who have sex with men in 31 European countries.....	34
2.2. Study 2: What is the empirical basis for converting banded ordinal data on numbers of sex partners among MSM into a continuous scale level variable? A secondary analysis of 13 surveys across 17 countries.....	51

2.3. Study 3: Prevalence and sociodemographic determinants of public stigma towards people with HIV and its impact on HIV testing uptake: A cross-sectional study in 64 low- and middle-income countries.....	59
2.4. Study 4: Population uptake and effectiveness of test-and-treat antiretroviral therapy guidelines for preventing the global spread of HIV: an ecological cross-national analysis.....	72
2.5. Study 5: The mental health crisis during the COVID-19 pandemic in older adults and the role of physical distancing interventions and social protection measures in 26 European countries.....	85
<b>3. Summary of findings, discussions, and conclusions.....</b>	<b>95</b>
<i>Resumen de los resultados, discusiones y conclusiones.....</i>	<i>99</i>
<b>4. Appendix.....</b>	<b>104</b>
Supplemental data Study 1 .....	105
Supplemental data Study 3 .....	114
Supplemental data Study 4 .....	124
Supplemental data Study 5 .....	129
